VendorFlow

End-to-end onboarding workflow

P0 · deterministic rules · fictional VF-DEMO data

Form is primary · the PDF is optional

INTAKE

Spot-check vendor
10 fictional records; each runs once before it is a genuine duplicate.

Editable form
10 required fields, prefilled and free to change.

Optional PDF
none · matching · conflicting, chosen per vendor.

No file is needed: the happy path still reaches Approved.

FORM FIELDS

- legal name
- state code
- PAN
- bank account number
- contact email
- country
- GSTIN
- bank account name
- IFSC
- vendor category

- teal stage: forms the decision
- approved
- pending, needs follow-up
- rejected

PIPELINE · 7 STAGES · EVERY RUN, IN ORDER

1. **Intake received**
   Pydantic validates the form snapshot.
2. **Optional document extraction**
   PyMuPDF text; skipped when no file is attached.
3. **Field validation**
   GSTIN, PAN, IFSC, email, account, state code formats.
4. **Cross-field consistency**
   Legal name vs bank name · GSTIN prefix vs state · PDF vs fields.
5. **Duplicate / blocklist**
   Legal name or GSTIN in history · synthetic blocklist.
6. **Decision + follow-up**
   Rules set the status and one concrete next step.
7. **Persist**
   Supabase, or session fallback when unset.

DECISION

RULES, IN ORDER OF PRECEDENCE

1	BLOCKLIST_MATCH	**Rejected**
2	any failing check	**Pending**
3	everything passes	**Approved**

Approved
Every check passed. No reason code is raised.

Pending
follow-up required

GSTIN_FORMAT · PAN_FORMAT · IFSC_FORMAT · EMAIL_FORMAT · BANK_ACCOUNT_FORMAT · STATE_CODE_FORMAT · GSTIN_STATE_MISMATCH · NAME_VS_BANK_ACCOUNT · DUPLICATE_VENDOR · DOCUMENT_VS_FIELDS

Rejected
BLOCKLIST_MATCH only. The synthetic blocklist is the sole rejection rule.

STORAGE

Supabase Postgres when secrets are set; otherwise a session-only fallback, stated in the UI.

SURFACE

Live run, stage by stage · History of every decision · Overview dashboard.

FIVE-MINUTE DEMO PATH

1. **Saffron · form only**
   Approved
2. **Meridian · conflicting PDF**
   Pending · DOCUMENT_VS_FIELDS
3. **Kiran · bank name differs**
   Pending · NAME_VS_BANK_ACCOUNT
4. **Pinnacle · blocklist**
   Rejected · BLOCKLIST_MATCH

Format checks only · no GSTN, PAN, IFSC or bank registry was queried · no outbound email · Gemini cannot approve or reject (GEMINI_ENABLED=false)
